Subject: RE: Reminder: Pesticide Risk Assessment for Pollinators

Dear Dr. Fischer,

I hope you had discussed this with Dr. Moriarty. I have however received no responses from him and you after you sent the responses for chapter 10 and appendix 6.

This is causing delay in the schedule publishing of the book. I would request you to send the responses by Jan 20.

Best Regards,

Shikha

Shikha,

I will need to confer with Tom Moriarty. We divided up the work and I think he's probably completed more of his than I have. However, I'm attaching a couple that are completed. We will let you know the status of the others shortly.

Best,

Dave

Importance: High

Dear Dr. Fischer,

As per your below email you were supposed to send me the query responses by Jan 10. I have however not received them by now.

Could you please send the query responses to me at your earliest.

Best Regards,

Shikha

Shikha,

My time was diverted to a few emergencies. However, I think Jan 10 is feasible. Tom and I have discussed and I know he has made some progress.

Dave

Dear Drs. Fischer and Moriarty,

Please note that I have still not heard from you on the editorial queries I sent you for the subject title book. This is causing delay in the schedule publishing of the book.

I would request you to send your responses by 1/10.

Best Regards,

Shikha

Shikha,
Dave and I spoke on Monday.
We have started but haven't made great progress.
We will send you what we have just a bit later this week.

Thank you for your patience.

Dear Drs. Fischer and Moriarty,

I hope you have reviewed the query sheets that I sent you for the individual chapters. Please send me your responses on the editorial queries. In case you are not done with all the chapters, please send them to me in batches so that I can start incorporating them to the edited manuscript and the production is not on hold.

It would be really helpful to send them at your earliest in order to meet the schedule publishing of your book.

I look forward to receiving a quick response from you.

Best Regards,

Shikha

Shikha, All,
Dave and I just spoke,
Neither of us have had a chance to iron-out these queries.

We will begin to put some time into them this week and likely have some or all of the chapters done this week.

Subject: Pesticide Risk Assessment for Pollinators

Dear Drs. Fischer and Moriarty,

Hope you are doing well.

My name is Shikha Sharma and the production of the above title has been assigned to me. I will be responsible for overseeing all stages of production, composition, proof trafficking and general quality control to final typeset copy. Upon completion of these stages, I will then forward the final copy to Erin Topp at Wiley.

My job as Project Manager here at Aptara is to ascertain that your book is of the highest quality possible. I assure you that I will eagerly put forth a great deal of effort and energy on the inputs I have received, and I guarantee you that the finished product will be one that you can be proud to say is your own.

Your book is currently being copyedited and you will be receiving the editor's queries in batches. I have attached the first batch of queries. Chapters 1 and 2 do not have any query. I request you to send the responses to these queries back, if possible, by **November 30**. We will then incorporate the responses into the edited files and typeset the page proofs. Please do not send the entire chapter manuscript again but just the responses to the queries.

You will be receiving the first proofs for your title by **the first week of January'14**. Once the proofs are sent; I will send notification to you. Also, once you receive the page proofs, you would have about 02 weeks time to review them and send them back to me with the corrections that you have. Please let me know if you would require a hardcopy set as well.

I look forward to working with you.

I hope that you will not hesitate to contact me, if you have any questions or problems.

Best Regards,

Shikha

Shikha Sharma
